MACE

On top a small hilltop amidst the serene, yet bustling town of Kothamangalam, stands high, a gem endeared by many creative engineering students and engineers- Mar Athanasius College of Engineering popularly known as MACE. Established in 1961, MACE has kindled in several spirits the vision of innovation and resolve to render support to the needy.

With 60 years of excellent service to the society, MACE has a myriad of skilled staff encouraging and guiding students to spread their wings for greater heights and learning a plethora of salient life lessons.

The +ve fully-fledged departments of MACE enable young engineers to develop professionally by firmly fixing the fundamentals respecting the importance of what they are to perform in the future.

Aiming to ignite the ingenious minds from all over the country, MACE proudly proclaims the onset of TAKSHAK '22, the annual technical fest of the college.

TAKSHAK

MACE awakens with the celebration of technical brilliance that would accelerate one's pneuma, its annual national technical festival - Takshak'22. As one of the premier forums for tech enthusiasts from all over India to meet, Takshak gives students a window to showcase technical calibre and innovative ideas. Not just any technical fest, Takshak is a platform for wonders that inspires and motivates countless numbers. Nevertheless, it commemorates a unifying link between branches of our college.

Now, when our world is almost back to normal, we are celebrating our creativity. The 15th edition of Takshak is a reminder to embrace our existence, bring our aspirations to life and invoke our spirit. It's time to live again with Takshak 22.

OUR THEME

Innate to iconic

Not too long ago, a Takshak rose from the ashes welcoming a new genesis. The question that rekindles the fire is, "What now?". With the contemplation of life, we have a cue to this uncertainty. Even though we are born the same, we evolve into our uniqueness, making ourselves part of a spectrum. To provide that indispensable lift from our innateness to an archetype, a brand new Takshak is surging.

#revelthespectrum

Even though the air of despondency has engulfed our existence, Takshak is here to bring back our exuberant selves. We are a spectrum of individuals with dreams as high as mountains and spirits that need ignition. Takshak 22 lights the match to accelerate our aspirations and celebrate our pneuma. Let us band together, perceive our uniqueness and #revelthespectrum.

SOCIAL EVENTS

Being an Engineer is a social responsibility. Engineers understand their social responsibilities and empathize with everyone and everything around them. Takshak is not just about upskilling but also about compassion for our surroundings and less privileged. Keeping this in mind, Diamond Jubilee Takshak 22 lines up a series of humanitarian events benefiting all involved.

PUBLIC PLACE CLEANING

A clean-up drive at Fort Kochi Beach to develop awareness among students on a cleaner and sustainable environment.

PAPER PEN WORKSHOP

As plastic waste is becoming a hurdle, we educate young minds on environmental conservation by conducting a workshop that teaches school students to make pens from paper.

MIME

In today's world of fluid sexuality, as humans, it is essential to support one another. Drawing inspiration from that, Takshak organizes a flash mob/mime that supports the LGBTQI+ community.

SCRAP MODELING

As electronic gadgets increased over the years, e-waste has surfaced on earth. Takshak employs the idea of scrap modeling using e-waste to promote proper e-waste management.

TELEI

Diamond Jubilee Takshak 22 presents you **TELEI**, a series of automotive-oriented events to display power, performance and grandeur. Telei is a fire that still ignites from the soul.

A whole event dedicated to sassy cars, bikes, engines, wheels and everything automotive.

Telei is the **Premium Event** under the annual tech fest **Takshak**. Founded in 2017, Telei became one of the biggest auto shows in South Asia, with a dedicated team working

together to bring automotive enthusiasts from all over South India. Last year, cars from the vintage era to jaw-dropping supercars showed their skills, and that sound of beasts still echoes deep in our hearts.

Telei is a magnetic manifesto of technical wonders that will stay in the hearts of countless numbers. Telei is back to grab the attention of all those who seek an adrenaline rush from those magnificent beasts. Make sure to witness the raging beasts from MACE.
